Section 2

Service Specifications

Section 2

Service Specifications

I. Introduction

A. Background

The Adult Mental Health Division (“DIVISION”) of the Hawaii State Department of Health (“DEPARTMENT”) is responsible for coordinating public and private human services into an integrated and responsive delivery system for mental health needs. Provision of direct services to consumers in the public sector is offered through programs offered by the Hawaii State Hospital (“HOSPITAL”) and the Community Mental Health Centers (“CENTERS”). In addition, the DIVISION contracts on a purchase of service basis with private providers for mental health services to supplement the efforts of the HOSPITAL and the CENTERS.

B. Purpose or Need

The prevalence data of “seriously and persistent mentally ill” in the population of Hawaii, derived from application of national studies to the local population indicates three rates based on several national door-to-door studies. The first study, the Epidemiological Catchment Area Study provided rates for an estimate of 16,148 persons; second, the National Health Center for Health Statistics study developed a rate which provided an estimate of 15,072 persons in Hawaii; and third, the National Co-morbidity Study (NCA) produced a rate which placed the prevalence at 21,531 persons in the State. In 1999, the Federal Register published guidelines for calculating current prevalence based on 2.6% of the total state adult population leading to an estimate of 21,742 adults who are seriously mentally ill.

Since persons who are seriously and persistently mentally ill typically manifest varying levels of need for care and often experience cyclical episodes of recurrence of the illness, a variety of service and housing options must be provided simultaneously to the individual and tailored to meet his/her current needs. Among these required services are those which must address the needs of persons when they are homeless, when they are experiencing a bout of illness or in relapse, and when they are in recovery and engaged in rehabilitative efforts in the community. The services sought reflect the assumption that services provided to persons who are seriously and persistently mentally ill, are community-based, are well-coordinated, and produce outcomes which are of benefit to both the consumer and society.

Over the past two years, a series of planning events were held with mental health stakeholders (consumers, staff, private providers, advocates, and family members) to provide input into the planning process. During this ongoing series of meetings,

views have been expressed on how to improve services and achieve system-wide goals. Emphasis on continuity of care and coordination among service providers has been expressed as well as the need to provide outcomes of service delivery. Most importantly, input has been received for provision of comprehensive, accessible services on each island and in rural locations with a range of housing options; a choice of treatment, rehabilitation, and housing services, with access to case managers; and other services after regular working hours. Services should be developed according to standards of best practices/evidence-based practices, provided by well-trained staff, be consistent across settings as demonstrated through accreditation, be accountable through a communicative management information system which can report consumer outcomes and reviewed periodically through the assessment of needs and satisfaction of service recipients. Best practices/evidence-based practices is defined as a body of contemporaneous empirical research findings that produce the most efficacious outcomes for persons with serious mental illness, has a literature to support the practices, is supported by national consensus, has a system for implementing and maintaining program integrity and conformance to professional standards.

The DEPARTMENT's continuing response has been to develop comprehensive community-based system of care or continuum of services in which interventions are designed to prevent and/or reduce the recurrence of illness, decompensation, crisis, emergency room and hospital care, and exposure to the criminal justice system. Under this RFP the DIVISION, HOSPITAL, or any of the CENTERS will procure the services of locum tenens psychiatrists to meet the temporary emergency psychiatric staffing requirements of the HOSPITAL and CENTERS. Locum tenens is defined as a practitioner who temporarily takes the place of another.

U.S. Department of Justice Stipulation and Order

Since 1991, the State of Hawaii has been under a Settlement Agreement with the United States Department of Justice (DOJ) relative to the treatment and rehabilitation programs and services at the HOSPITAL. Since 1998, the DIVISION has been developing and implementing an array of community-based services. In May 2001, the United States District Court appointed a Special Master to oversee the activities of the HOSPITAL and resulting community services developed by the DIVISION. On January 23, 2003 the Court ordered the implementation of the Plan for Community Mental Health Services that delineates the development and implementation of community services necessary to support the discharge and transfer of patients from the HOSPITAL, and to support the diversion of individuals who would otherwise have to be admitted to the HOSPITAL. The development, implementation, integration, coordination and monitoring of all these programs and services required by both court ordered plans will require the DIVISION to generate, coordinate and constantly monitor the systematic, uniform and accurate data and information, and the compilation of

information into management reports for policy and program and/or services development.

C. Description of the goals of the service

The goal of this service is to inform and educate the public-at-large about severe and persistent mental illness. State-of-the-art knowledge shall be presented relative to prevalence of mental illness in Hawaii as noted in the DIVISION's State Plan for Mental Health, Fiscal years 2002-2003, recognition and description of serious mental illness, myths of mental illness, when and how to get help, and services based on "best practices/evidence-based practices" for persons with severe and persistent mental illness relative to the following services: supported housing, supported employment, assertive community treatment, medical algorithm, integrated treatment, family and consumer self help.

Methods of presentation of information and education shall include oral presentations, brochures, public service announcements, booklets on securing services, and display boards. Consumers shall be utilized as a member of the presentation team.

Evaluations of services provided shall be undertaken through two methods: 1) process evaluation will measure the success of the presentations in informing the general public; 2) impact evaluation will attempt to measure the commitment that individuals or organizations provide as a result of education. The outcome evaluation will be measured through the DIVISION's state objective on employment of persons with serious mental illness.

The goals of this service is to increase the knowledge of the public-at-large about severe and persistent mental illness in order to mitigate the negative consequences of stigma and encourage help-seeking for mental distress. The goals of the project fulfill two essential public health services:

1. Inform, educate and empower people about health issues, and
2. Mobilize community partnerships to identify and solve problems.

D. Description of the target population to be served

The target population of the RFP shall be the public-at-large.

E. Geographic coverage of service

The applicant shall provide services statewide.

F. Probable funding amounts, source, and period of availability

Total federal funding: \$40,000.00

Pending availability of Federal funds. The source of Federal funds is the Department of Health & Human Services, Center for Disease Control, Preventative Health and Human Services Block Grant.

Only non-profit organizations are eligible for Federal funds.

The DIVISION considers itself the payor of last resort, and expects providers to obtain third party reimbursement as applicable. The DIVISION gives priority to the uninsured.

If an applicant materially fails to comply with terms and conditions of the contract, the DIVISION may, as appropriate under the circumstances:

1. Temporarily withhold payments pending correction of a deficiency or a non-submission of a report by a provider.
2. Disallow all or part of the cost.
3. Suspend or terminate the contract.

In the event that additional funds become available for similar services, the DEPARTMENT reserves the right to increase funding amounts.

Competition is encouraged among as many applicants as possible.

II. General Requirements

A. Specific qualifications or requirements, including but not limited to licensure or accreditation

PURPOSE

To develop guidelines for responding to service-related and discrimination consumer complaints.

POLICY

All service-related and discrimination consumer complaints shall be investigated, and corrective measures shall be executed in a timely manner, if such action is deemed warranted.

Each service area center shall designate a person as a Rights Advisor, who will investigate written consumer complaints and ensure that grievance procedures are followed.

PROCEDURE

A. Service-Related Consumer Complaints:

1. A consumer's complaint shall be investigated within the organization where the alleged incident occurred. At the complainant's option, the complaint may be handled informally or formally.
 - a. An informal response to a complaint means that a designated staff investigates the complaint, and resolves the matter within the organization to the consumer's satisfaction. (See attached "Important Rules for Handling Complaints.")
 - b. A formal response necessitates the completion of an Incident Report Form by the complainant at the time the complaint is made. Copies of the Incident Report shall be submitted to the Center's Rights Advisor, who will conduct an investigation.

A written report must be made every 15 working days until the complaint is resolved. All staff shall cooperate with the Rights Advisor during the course of the investigation.
 - 2) If the Rights Advisor or the program administrator believes that (s)he cannot conduct a full and fair investigation because of a conflict of interest, the administrator of the program where the complaint originated shall appoint another qualified individual to conduct the investigation.
 - 3) Within 15 working days after receiving the Rights Advisor's written report, the administrator of the program where the complaint originated shall issue a statement to the complainant reporting what corrective measures, if any, will be taken.
 - 4) If the complainant is not satisfied with the Rights Advisor's investigation or report, the complainant may then appeal in writing to the AMHD Chief. The Chief shall re-open the investigation and submit a written report to the complainant within 30 working days of receipt of appeal, and every 30 days thereafter, stating results of the investigation and reporting what corrective measures, if any, will be taken.

3. CERTIFICATION REGARDING LOBBYING

Title 31, United States Code, Section 1352, entitled "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions," generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non-appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs (45 CFR Part 93).

The undersigned (authorized official signing for the applicant organization) certifies, to the best of his or her knowledge and belief, that:

- (1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the under-

signed, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

- (2) If any funds other than Federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions. (If needed, Standard Form-LLL, "Disclosure of Lobbying Activities," its instructions, and continuation sheet are included at the end of this application form.)
- (3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

4. CERTIFICATION REGARDING PROGRAM FRAUD CIVIL REMEDIES ACT (PFCRA)

The undersigned (authorized official signing for the applicant organization) certifies that the statements herein are true, complete, and accurate to the best of his or her knowledge, and that he or she is aware that any false, fictitious, or fraudulent statements or claims may subject him or her to criminal, civil, or administrative penalties. The undersigned agrees that the applicant organization will comply with the Public Health Service terms and conditions of award if a grant is awarded as a result of this application.

5. CERTIFICATION REGARDING ENVIRONMENTAL TOBACCO SMOKE

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.
